

Get customers to the
electric future, faster,
from anywhere

ENNOVI.COM

ENNOVITM

Building on our six-decade track record in the automotive industry and deep experience in electro-mechanical engineering and high-precision manufacturing, ENNOVI is the mobility electrification solutions partner for enabling the global conversion to electric vehicles.

We believe if we solve complex problems sooner, and provide sustainable, superior solutions, we can get customers to the electric future faster, from anywhere.

With more than 50 product engineers and 250 manufacturing engineers, ENNOVI has amassed 369 patented products and counting.

Our portfolio of enabling technologies and targeted solutions address the key challenges in e-mobility, including drivetrains, batteries, charging, sensors, in-vehicle networking, and advanced driver assist systems (ADAS).

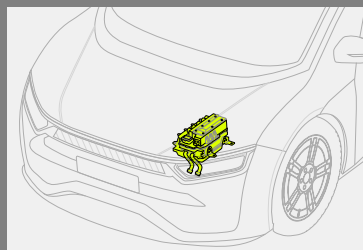

BATTERY PACK

- + Cell Contacting System, ENNOVI-CellConnect-Round
- + Cell Contacting System, ENNOVI-CellConnect-Prism
- + Enclosures & Cell Components

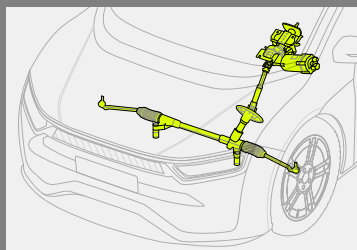

ON-BOARD CHARGER

- + High Power Connector
- + Power Busbar Connector, ENNOVI-BusMate

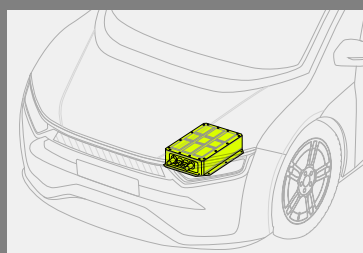

INVERTER

- + AC & DC Molded Busbar
- + Flexible Busbar
- + High Power Connector
- + Phase Busbar
- + Power Busbar Connector, ENNOVI-BusMate
- + Power Filter Module
- + Power Module Lead Frame

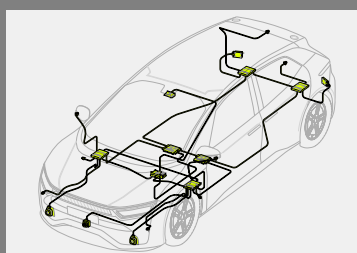

STEERING

- + Motor Stator Busbar
- + Multi-Row Board-to-Board Connector
- + Power Busbar Connector, ENNOVI-BusMate
- + Power Filter Module

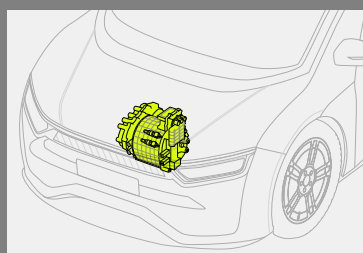

CONVERTER

- + AC & DC Molded Busbar
- + High Power Connector
- + Power Busbar Connector, ENNOVI-BusMate
- + Power Module Lead Frame

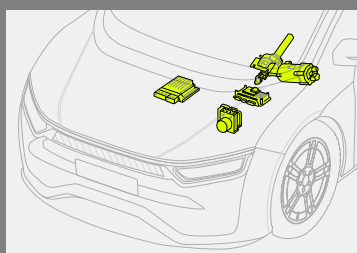

SENSOR

- + Automotive Ethernet Connector, ENNOVI-Net
- + LiDAR Interconnect
- + Radar Interconnect

ELECTRIC TRACTION MOTOR

- + Flexible Busbar
- + Motor Stator Busbar
- + Phase Busbar

CONTROLLER

- + Automotive Ethernet Connector, ENNOVI-Net
- + High-Pin-Count Header
- + Integrated Connector Housing

Our commitment to sustainability is evident across our entire solutions portfolio and in the values that drive our global operations.
