

Competencies powering
breakthroughs & innovation

ENNOVITM

We harness the power of two megatrends – electrification and AI – to help industries innovate at speed, operate smarter, and achieve sustainable growth.

By combining these transformative forces with our global reach and best talent, we empower our customers to lead their markets and drive sustainable progress.

Our global-reach-and-local-engagement model includes multiple R&D and production facilities with extensive capabilities and certifications.

Types of Certifications

NUMBER OF SITES HOLDING CERTIFICATES

Our facilities are certified to various standards:

ISO 9001:2015	ISO 17025:2017
AS 9100:2016	ISO 3834-2:2005
IATF 16949:2016	ISO 45001:2018
ISO 13485:2016	ISO 14001:2015
ISO 14554-1:2013	ISO 27000:2013

Number of Certifications

QUALITY

ISO 9001	31
IATF 16949	25
ISO 13485	7
AS 9100	1

SOCIAL & ENVIRONMENTAL RESPONSIBILITIES

ISO 14001	21
ISO 45001	6
ISO-IEC 27000	1

LABORATORIES

ISO/IE 17025	3
--------------	---

WELDING PROCESS CONTROLS

ISO 3834-2:2005	3
ISO-IEC 14554-1:2013	1

VIEW OUR
STANDARDS &
CERTIFICATES

Our competencies include some of the most challenging technology areas, supported by our advanced manufacturing capabilities.

AUTOMOTIVE

Your partner in accelerating electrification with unmatched reliability, performance, and sustainability across a wide range of vehicle systems.

AEROSPACE

Driving the future of electrification, we enable advanced air mobility through uncompromising safety, traceability, and quality across every phase, from concept to takeoff.

CONSUMER ELECTRONICS

We are your end-to-end partner in developing solutions to accelerate consumer technology trends and AI-powered smart devices that shape everyday living.

DATA STORAGE

We support the digital infrastructure revolution, empowering AI data capacity through precision-manufactured components for next-gen data storage systems, from cloud to edge.

INDUSTRIAL

Your partner in shaping the future of automation, robotics, and energy storage systems, enabling OEMs to achieve AI-powered manufacturing for Industry 4.0.

MEDICAL

We are your end-to-end customized solutions partner, empowering OEMs to harness AI-driven technologies and accelerate innovation for medical devices.

R&D CAPABILITIES

- + Additive Manufacturing
- + Design Services
- + Metallurgical Laboratory
- + Product and Technology Development
- + Plating R&D
- + Precision Tool and Die Design and Manufacturing
- + Prototype Excellence Center
- + Sheet Metal Fabrication Center

MANUFACTURING CAPABILITIES

- + Cold Forging
- + Cold Forging Progressive Stamping
- + Deep Drawing
- + Die Casting
- + Diffusion Bonding
- + Chemical Etching
- + Lamination
- + Liquid Forging
- + Molding
 - o Silicone Molding
 - o Overmolding
 - o Insert Molding
- + Plating
 - o IndiCoat™ Whisker Mitigation Plating (patented)
- + Potting
- + Precision Stamping
 - o Reel-to-reel Stamping
 - o Chemical Panel Stamping
- + Precision Machining
- + Welding
 - o Green Laser Welding
 - o Ultrasonic Welding
 - o Laser Welding

TESTING & VALIDATION CAPABILITIES

- + Functional Testing
 - o Hi-Pot
 - o Contact Pressure
 - o Automated Vision Inspection
- + Laboratory Testing
 - o Micro Contamination
 - o Environmental

DISCOVER OUR CAPABILITIES

ENNOVI™

ENNOVI has more than 8,000 employees, delivering solutions out of 22 locations and 8 R&D Centers.

ASIA

SUZHOU, CHINA

- + Product & Technology Development
- + Tooling Development
- + Design Validation & Testing

BANGALORE

- + Product & Technology Development

EUROPE

NECKARSULM, GERMANY

- + Application Engineering & Development
- + Design Validation & Testing

MOTHERWELL, SCOTLAND

- + Research & Development of Plating Technologies

NORTH AMERICA

ATTLEBORO, MA

- + Design Validation & Testing

CHICAGO, IL

- + Development
- + Design Validation & Testing

FORT LAUDERDALE, FL

- + Research & Development of Medical Applications

SAN DIEGO, CA

- + Design Validation & Testing of Medical Applications
